

A World Survey of Religion and the State

By Jonathan Fox

Cambridge University Press. Paperback. Book Condition: New. Paperback. 400 pages. Dimensions: 9.0in. x 6.1in. x 1.1in. This book delves into the extent of government involvement in religion (GIR) between 1990 and 2002 using both quantitative and qualitative methodology. The study is based on the Religion and State dataset (RAS), which includes 175 governments across the globe, all of which are addressed individually in this book. The forms of GIR examined in this study include whether the government has an official religion, whether some religions are given preferential treatment, religious discrimination against minority religion, government regulation of the majority religion, and religious legislation. The study shows that GIR is ubiquitous, that GIR increased significantly during this period, and that only a minority of states, including a minority of democracies, have separation of religion and state. These findings contradict the predictions of religions reduced public significance found in modernization and secularization theory. The findings also demonstrate that state religious monopolies are linked to reduced religious participation. This item ships from multiple locations.
