More specific, it answers questions related to the following topics: i) Sustainability contested ii) Global Challenges iii) Community Challenges , abstract: QUESTION I-I: Based on the various readings and websites what, if any, seem to be the core 'agreed' principles of sustainable development and what are the key areas that are contested Regretfully, the umbrella-term 'sustainable development' is increasingly being used indiscriminately and arbitrarily, in both the scientific and the political discussion of sustainable development. The concept thus encourages increasingly arbitrary 'definitions'. For logical reasons, any concept which has to encompass almost everything (extension) must lose specific meaning (intension). However, after more then twenty years of debate about the term, one can identify an ethical profound core meaning as well as some clear contoured basic conceptions of 'sustainability'¹. The debate about 'sustainability'...
